| Tooltip Description              | Tension wire system <span class="wordmark-r">belux</span> hello: supplied universal dowels and screws are suitable for fixation in solid brick or concrete walls (ceiling). For drywalls, plasterboard, suspended ceilings, cavity bricks, wooden cladding or similar, measures for reinforcement must be taken prior to installation. It is the responsibility of the installer/user to choose suitable fixation technology! When planning numerous light sources (spots, floods) the additional weight might force the tension wire to sag. <span class="wordmark-r">belux</span> therefore always recommends an intermediate suspension BL540 144 000 007 when planning system lengths >= 5000mm. |
